

RUNNING REPAIR AUDIT

AllTranstek is the industry leader for fleet management services and tank car technical expertise. AllTranstek manages over 275,000 railcars of all types for some of North America's largest companies.

AllTranstek technical services group provides technical and operational support to the rail equipment supply chain, including field inspections, engineering, regulatory compliance, NDT Level III, NDT training, and welding support.

AllTranstek strategic services group offers a 360° view of the rail supply chain by providing clients with market research, analytics, forecasting, and strategic consulting services.

Our back office is first class.

Clients save time and see reduced costs with our Running Repair Audit service. Our decades of railroad billing, auditing, and compliance experience saves money for our clients.

BILLING REPAIR CARD AUDIT

INVOICE ACCURACY

IDENTIFICATION OF UNUSUAL REPAIR TRENDS

RUNNING REPAIR AUDIT

Our top priority is to recover savings for railcar owners by auditing repair bills—so our customers don't have to. Back office administration is trouble free. We know the repair rules.

WHAT WE DO

Billing Repair Card Audit.

AllTranstek audits railroad repair work performed to ensure invoices are accurate and in compliance. We alert our clients to weaknesses existing in the repairs made in accordance with AAR rules and regulations. Ultimately, railroad service levels may be improved due to AllTranstek's management of the repair billing process.

AAR Compliance Assurance.

Over 35 years of experience allows us to navigate complicated repair rules and regulations with ease.

Identify Unusual Repair Trends.

We prepare accruals for railcar repairs over a fiscal year, assisting car owners in identifying key trends in the repair process. If we find repetitive repair events, we advise our customers to send a discovery team (AllTranstek inspector or AAR MID inspector) to determine if there is a faulty process or unnecessary repair activity for which our customer is being billed.

Budget Management.

AllTranstek boasts a deep understanding of railroad and shop repair processes given our history as North America's leading 3rd party fleet management service provider. The running repair audit provides comfort to management, board members, and key stakeholders who are not involved in the day-to-day repair operations.
